Seminar

I

This course will review historical events and contemporary headlines and engage students in courageous conversations as means of inspiring them to think critically about race and its role in society. Though the course will likely discuss the popular yet controversial Black Lives Matter (BLM) movement that inspires its title, we will spend more time looking at BLM as a statement that describes the sentiment of many Blacks that their lives are insignificant in the eyes of mainstream America. With respect to research connecting academic and professional success with identity, this course will also encourage students to reflect and discuss their personal identities as they relate to the discrimination and oppression of Black people in America.
