

WSU Employee Competencies

There are six core competencies. Managers and Budget Officers/Budget Review Officers have additional competencies. Each competency is defined by a set of desired behaviors.

The following competencies are tied directly to the University Strategic Plan's Values. The rating for the Competency section will account for 100% of the overall rating of the evaluation. When completing this section, the manager should provide specific examples of work expected that demonstrate how the competency would be rated. Job duties from the employee's position description should be tied to the competencies. At the end of the review period, the manager should provide specific examples of how the employee's performance did or did not match the desired behaviors.
